About Down syndrome

One in every 691 live births is a child with Down syndrome. Each year 6,000 babies are born with Down syndrome. All people with Down syndrome have an extra copy of the 21st chromosome in all or some of their cells. Early Intervention, high quality educational programs, a stimulating home environment and good medical care enable people with Down syndrome to become active and contributing members of their communities.

Where the Money Goes

As a volunteer association 100% of contributions received are directed to education and support of the Luzerne County Down Syndrome Network and its mission.

Luzerne County Down Syndrome Network Fund is affiliated with The Luzerne Foundation, a non-profit Pennsylvania 501c3 public charity. Your donation is tax deductible. All donors may request a tax deduction statement provided we have donor's name and full address.
